I'm a full-stack software engineer with 3 years of experience building web applications and mobile apps. I specialize in backend development, creating robust APIs and server-side architecture, while also delivering clean, intuitive user interfaces. I enjoy the challenge of connecting seamless frontend experiences with well-structured backend systems, ensuring both performance and user satisfaction. I'm always exploring new technologies and best practices to improve both the technical foundation and user experience of the applications I build.

### AREA OF EXPERTISE

Frontend Development API  
Intergration Cross-Browser  
Compatibility

Project Collaboration  
Frameworks and Libraries  
Design Systems

Version Control Responsive  
Design Performance  
Optimization

### TECHNICAL SKILLS

ExpressJs  
NodeJs

Mongodb  
SQL Server

Javascript  
ReactJs

HTML  
CSS

Redux  
RESTful APIs

GIT and GITHUB  
TailwindCSS

### EXPERIENCE AND PROJECTS

#### Frontend Engineer - Optimalvid

- Developed and optimized user-friendly web interfaces, ensuring seamless functionality and responsiveness. Collaborated with the team to implement efficient frontend solutions and enhance user experience.

#### Software Engineer | Founder-BorrowXchange

- Designed and developed the entire backend architecture from scratch, ensuring robust API functionality, secure data handling, and seamless integration with the frontend. Also contributed to building and optimizing user-friendly web interfaces, collaborating with the team to implement efficient frontend solutions and elevate the overall user experience.

#### API Integration Specialist

- Worked on multiple projects to integrate RESTful APIs, improving website interactivity and enhancing user functionality across different platforms.

#### Commercial Website Rare-Fitness

- Developed and deployed a commercial website using React.js, and Node.js. Ensured responsive design, optimized performance, and integrated payment gateway solutions for e-commerce functionality.

#### Frontend Developer Mentor Online

- Guided and mentored junior students in frontend development, including HTML, CSS, JavaScript, and GitHub. Provided assistance in project work and collaborated on code reviews.

#### Techwizz Competition Participant

- Represented my institution in the International Techwizz Competition 2023 to 2025, where I demonstrated advanced and backend and frontend development skills and competed in various technology-based challenges

### EDUCATION

#### Advanced Diploma In Software Engineering

Feb 2023 - Dec 2025

#### Aptech Computer Education

- Major in frontend engineering Focused on frontend development, integrating RESTful APIs into multiple projects to enhance website functionality and improve user experience by ensuring smooth data retrieval and interaction between the user interface and backend services.

#### Science Major

Sep 2016 - Sep 2022

#### Lagos State Model College Igbonla

- Mathematics, Statistics and Probability

### ADDITIONAL INFORMATION

- Language:** English
- Certifications:** Advanced Diploma In Software Engineering, Data Science Career Path
- Awards/Activities:** Showcased frontend development skills in the International Techwizz Competition 2023, 2024, and 2025, representing my institution on a global stage.
